FAILURES IN 1875.

Messrs. Dunn, Wynn & Co., of the Commercial Agency, Montreal, have just issued their annual compilation of statistics showing the number of failures that occurred throughout the Dominion of Canada during the past year, together with the amount of liabilities and assets, which shows as follows:

Province.	Liabilities.	Assets.
Quebec.....	\$75,394,628	\$2,380,792
Ontario.....	1,275,307,377	5,520,427
Manitoba.....	1,275,307,377	5,520,427
New Brunswick.....	1,275,307,377	5,520,427
P. E. Island.....	1,275,307,377	5,520,427
Newfoundland.....	1,275,307,377	5,520,427

1,068,823,643 to 11,702,973 76

The compilers go on to say that these figures are almost startling in their magnitude, but it should be borne in mind that they were swollen to a large number of "lame ducks," some in and some out of business, who made assignments during 1875 so as to avoid the more stringent provisions of the new Bankruptcy Act, making due allowance, however, for this fact, the figures are still so far above the average amount of our annual failures and losses as to indicate that the inflation, over-trading and speculation which have characterized business for several years past have been much greater than is commonly supposed.

The amount of the liabilities of insolvent persons during 1875 was more than double the amount of 1873, and nearly four times as large as the liabilities of the previous year. This proves how severe was the pressure during last year, and also indicates a very considerable loss of business capital to the country. Taking an unrepresentative view, we should say that the insolvent estates would turn out well if \$10,000,000 were realized out of the \$17,362,973 at which their value was estimated, and which has been deducted from the liabilities, \$23,843,967, would leave a clear loss of \$18,000,000 of capital during the past twelve months. This may be said to be unexampled in the past history of Canada, and it is probably reducing the accumulation of wealth in the country during the previous prosperous years.

As showing that the cloud has its silver lining, we may say that the largest number of cases of insolvency occurred during the third quarter of the year, and that during October, November and December, they were less than during either of the two preceding quarters. The following are the returns for each three months of 1875:

year 1875 will remain a memorable
in Canadian history for its commercial
aters and losses. Not, probably, since
great crisis of 1857-8 have there been
failures in Canada during a single
re months, or have so many old and
established firms gone to the wall.
has occurred, too, just after a period

Total..... 1308..... \$23,843,967
The year 1875 will remain a memorable one in Canadian history for the prevalence of disasters and losses. Not, probably, since the great crisis of 1857-8 have there been more failures in Canada during a single twelve months, or have so many old and long established firms failed, and so many new ones started. This has occurred, too, just after a period of unusually rapid development, and great prosperity throughout the Dominion, and when the farming community and the people generally are admittedly quite prosperous. We are, therefore, forced to the conclusion that the failures of 1875, numerous and serious as they have been, do not indicate the unsoundness of our business fabric, but are simply the result of the receding out of the country of the great influx of capital, and the consequent extravagance and the thoughtless, which invariably follow a period of inflation in a country's commerce.

The tide seems to have turned shortly after the late harvest was gathered in, and there are good grounds for believing that abundance has gone far to relieve the pressure and restore confidence. It would be too much, probably, to hope that business will speedily revive to the buoyancy and prosperity of 1874, but there is a strong confidence felt in well informed circles that the worst has been passed, and that before many months come and go, the wheels of business throughout the Dominion will again commence to revolve with their accustomed regularity and ease.

The lesson taught by the reverse of the past has been a severe one, but its effects will not be lost if our business men pursue a more conservative policy in the future, than they did during the past. The timber trade shows excellent promise of returning activity, and if the Government refrains from imposing a tariff on the importation of Canadian manufactures, the return to a normal state of business prosperity will be much more rapid than it would otherwise be.

BLOCKADE BY SNOW.—The Union Pacific Railway in Nevada is blocked by snow, and the line is closed to all traffic, all along the line in that State, and freight trains are unable to get through.

RETIRING ALLOWANCE.—We notice with pleasure that the Ontario Government allow Dr. Byrson his full salary as a retiring allowance on his resignation of the office of Chief Superintendent of Education. Few men have deserved better of their country than Dr. Byrson, to whom we are indebted for the splendid educational system which is in operation in this Province, and although we do not as a rule, approve of pensioning officers who are fit for duty, we endorse the granting of this well-earned pension to the venerable gentleman upon whom it has been bestowed, and whose valuable services it is but only slight acknowledgment.

OUR NEW DOMINION.

Last evening the Rev. Dr. J. J. F. of Cobourg, lectured on the above subject in the Town Hall, in the interest of the West Toronto, Methodist Church. The lecturer regretted that a larger number did not avail themselves of the privilege of hearing the Lecture, which was worthy of the Dr.'s reputation as an original thinker and orator, as it was comprehensive in its grasp of its theme. His opening remarks referred to Belleville and the Bay of Quinte district, where one might expect to find a truly British Colony. He had a similar belief in the lecturer took his seat, and was greeted with shouts of applause, which lasted for some time.

Mr. Bowell, Esq., M. P., occupied the chair, and at the conclusion of the lecture, he presented a paper to the lecturer, moved by Hon. Robt. Reid, was seconded by John Lewis, Esq., and carried.

those reading aloud rushed to the aid of their brethren, and to the aid of the invader. Fifty years hence the world will be left by the great British Empire, in the shape of colonies the grand old mother of planting in every land. ONTARIO LEGISLATURE.

STREET SESSION—THIRD PARLIAMENT.
Monday, Jan. 31.
Mr. Crooks, in moving the third reading of the bill, referred to the fact that the bill had been passed by the House of Commons, and that it was now before the Senate. He stated that the bill was a very good one, and that it was necessary to pass it as soon as possible. He then moved the third reading of the bill, which was carried by a large majority.

The House then proceeded to the discussion of the bill. Mr. Crooks moved the third reading of the bill, which was carried by a large majority.

WEDNESDAY, FEBRUARY 2, 1876.

Town and Vicinity.

THE CELLS.—Three wanderers spent the night in the cells, who were taken there for being in such an unsavory place.

LATE.—The train from the west was four hours late to-day, having been detained at Toronto waiting connections from the west.

TELEGRAPHIC.—Last night's storm caused an interruption to the Montreal Telegraph Company's line, and we are in consequence without our usual morning despatches to-day.

SKATING.—This amusement has taken a firm hold upon the public taste this winter, this various rinks being tolerably well patronized every night. There is some talk of a carnival being got up at an early date.

MEETING.—Remember the meeting of the Liberal-Conservative Association at 2 o'clock p. m. to-morrow in the Hall over Harrison's music store. Officers will be elected and other business transacted, and we hope to see a large representation of the riding.

FILE AT GRAPTON STATION.—At six o'clock a. m. yesterday, the Tank-House and the steam engine, and pump, and the dwelling house where the engineer resided, were destroyed by fire. Loss about \$2,000. No insurance. The property belonged to Mr. C. J. Smith, of this town.

BARNARD CONCERT COMPANY.—This excellent company, which made a very favorable impression on its first performance here, is to perform in the Metropolitan Hall on Tuesday evening next. The plan of the hall is now open at Harrison's, and early application will be necessary to secure seats, as a very large number of places have been disposed of.

CUSTOM HOUSE RECEIPTS.—The receipts of the Custom House for the last month amounted to the sum of \$1,160.70, as against \$1,231.68 for the corresponding period last year, showing that the hard times prevalent this winter throughout the country have had their depressing effect upon the trade of Belleville, as well as all other places in the Dominion.

WATTS FIRE.—A wagon load of white oak was on sale on the wharf on Tuesday, Feb. 1st, having been taken by Gilberts, in Waller's Bay, on the night of the 31st January. This is unprecedented in the memory of the oldest inhabitants. The vessel is, not that the oak is in the Bay, but that the Bay should be opened this season of the year, to enable men to set their nets.

WEATHER PREDICTION.—This is the day on which, according to Indian tradition, the bear emerges from his retreat to look at the weather, and go back to his cave, and more to his winter retreat if he see his shadow. If there be any virtue in tradition, we shall certainly have a week or two more winter, for that bird like his shadow, provided he looked for it, there cannot be a shadow of a doubt.

TEMPERATURE.—We are indebted to Prof. Whittell, of Montreal, for the following statement of temperature during the past twenty-four hours: The maximum temperature during the twenty-four hours ending at noon to-day, was 35 deg. above zero; the minimum was 7.2 degrees below zero. The range was therefore 42.2 degrees. At 7 a. m. to-day the ordinary thermometer was 9 degrees below zero, and at 1 p. m. this afternoon it was 1 deg. below zero like the shade.

A STORM.—The first genuine snow storm since the middle of December last, began last night. In the early part of the storm the wind was very heavy and wet, and rain seemed to threaten, but later the temperature fell and a strong gale sprang up from the west, which rendered the night very cold, and the snow fell in the style of former winters, piling it in considerable heaps in sheltered spots. About four or five inches of snow fell, and there were a good many sleighs out this morning, though in exposed places the roads and streets have been bare of snow by the prevalence of the wind. Travel will be rather heavy on the roads running north and south, but on those from east to west going will be improved.

SCHOOL ANNIVERSARY.—The first anniversary of the West Belleville School, occupied the chair. After devotional exercises, conducted by the Rev. S. P. Ross, the Secretary, Mr. Butler, read the first annual report. From it we learn that the school was opened on the 29th Nov., 1874, with sixty-four scholars; that there are at present one hundred and sixty-five scholars on the roll, with an average attendance of one hundred and

AFTERNOON DISPATCHES.

London, Feb. 2.—An inquiry into the matter of the American ship "Hercules" which was lost with all hands on a mysterious way on the 1st of Dec'r off Tuncar, Ireland, was opened in Parliament yesterday.
The Morning Post's Berlin special says that negotiations for a compromise between Prussia and the Ultramarines are again disposed to show signs of success.
The opposition to the present Government, Herr Reichensperger's pamphlet, "The Port is informed will be sent to the Emperor as a gift with a view to the Emperor's opinion of the Dr. Falk, the Prussian Minister of Ecclesiastical Affairs and Public Instruction.

Madrid, Feb. 2.—General Rivera has captured a Carlist party of four kilometers from Estella. The Carlists in the province of Biscaia are retreating upon Zamora. Gen'l Martinez Campos is at Elizondo.

London, Feb. 2.—The statue of Lord Palmerston, which was unveiled by the Earl of Rosebery, was unveiled to-day. There was no ceremony.

Arrived on S. S. Indiana, from Philadelphia, and S. S. from Portland.

London, Feb. 2.—The British will send a large quantity of coral and other goods to the Philadelphia Centennial Exhibition. The steamer Durian will take several packages from this and other Italian ports.

Detroit, Mich., Feb. 2.—A terrific storm of wind and snow swept over the State last night. This morning is the coldest of the season. Thermometer registered 35 degrees below at Mackinac.

Troy, Feb. 2.—The wind blew a gale here this morning, blowing down and doing damage in the city to the extent of several thousand dollars.

At Cohoes the damage is about \$30,000. Some of the bridges are being done damage in the city to the extent of several thousand dollars.

New York, Feb. 2.—Reports from Philadelphia, Washington, and along the coast, indicate that the severity of last night's gale increased southward. A number of houses were uninjured, and several vessels in distress, but no loss of life announced.

The wires are so much interrupted that no Congressional reports can be obtained.

New York, Feb. 2.—Washington special report the discovery of serious discrepancies in the postal accounts of 1875, amounting to \$1,000,000. In 1876 the balance on hand was reported to the Postmaster General of \$1,019,559. In the report for the following year this item does not appear, nor is there any explanation of the discrepancy.

Concord, N. Y., Feb. 2.—At 7 this morning, during a gale, the steeped St. Bernard's Church, 725 feet high, containing a full chime of bells, was blown down, and completely demolished the church. They fell across the Rensselaer and Saratoga R. R. track, where they lay, impeding the passage of trains, but apparently not much damaged.

The roof of the residence of Daniel McGrath was lifted and hurled to the opposite side of the street.

In Philadelphia the wind did great damage at the Centennial grounds and the towers of the Agricultural Hall and of the New York State Buildings were considerably injured. The tin roof of the Trans-Continental hotel, near the Centennial grounds, was partially carried away, as was the tin roof of the Farmers' Market.

In Camden, N. J., the gale was equally violent. The roofs of six houses on Sixth St. were lifted up and blown seven feet.

Reports of the gale are beginning to come from New England for the first time. The worst criminals had complied to make their escape from the prison. On Monday night they were provided by two ex-convicts with the means of escape.

The lives of the keepers of any other person who might interfere with them in the attempt were to be sacrificed. Fortunately one of the conspirators was the keeper of the prison, the leader of the movement was Wm. Barker, alias Titus, who was sent up for five years.

Most of the prisoners had civilians' dress and were armed with revolvers and pistols. The conspirators were armed with revolvers and pistols. The conspirators were armed with revolvers and pistols.

New York, Feb. 2.—The signal observatory of this city reports that the velocity of wind last night and this morning reached 60 miles an hour, and was accompanied by heavy rain, sleet, and snow, and was accompanied by heavy rain, sleet, and snow.

Washington, Feb. 2.—Probabilities.—For Middle States and Lower Lake region, rising to high wind and heavy rain and high north-easterly winds, gradually diminishing in force, falling and clearing, and light and clear or clearing weather will prevail.

BELLEVILLE MARKETS.

INTRODUCTION OF THE NEW YEAR.
Since our last weekly report, business in the Provision market has been light, owing to the lack of stock and prices have been tolerably steady, with a slightly upward tendency.

GRAIN.—Barley has advanced 10 cents per bushel, but under this stimulus receipts have been light, showing that farmers are either holding back for a further advance, or that there is but little grain to be marketed.

PEAS have advanced 10 cents per bushel. There have been some good demands for shipping to Liverpool. Rye also shows an advance, latest quotations being 60 cents per bushel. Oats are lower at 25 1/2 to 26 1/2.

CHEESE.—Latest cable advances place the price at 68 cents per lb., an advance of 20 cents over last week's prices.

Hay is rather lower at \$10 to \$12 per ton, receipts being in excess of the demand.

Harper's Bazar.

ILLUSTRATED.

Notes of the Press.
The Bazar is edited with combination of fact and talent that we seldom find in any journal. The illustrations are the work of the great artist of fashion - J. J. Harper.

The Bazar commences to be a very member of the household to the children by doll and picture, to the young ladies by the fashion plates in endless variety, to the prevalent taste by the patterns for the children's clothes, to the reading matter of the Bazar is uniform and of great excellence. The paper has acquired a wide popularity for the Bazar in England, Scotland, and America.

In its way there is nothing like it. Fresh and trustworthy as a fashion guide, its stories and essays, the poetry and songs, are all interesting to the mind. - *Chicago Record-Journal.*

ONTARIO LEGISLATURE.

FIRST SESSION—THIRD PARLIAMENT.

FRIDAY, Feb. 4.

Dr. Clarke withdrew his motion respecting the Income Tax.

The House then went into Committee on the railway resolutions, and a discussion took place on the item relative to granting \$2,000,000 for the completion of the Lake Simcoe Junction railway.

Mr. Crooks said that after receiving the Government grant the Government would only require \$25,000 to complete the road without equipment. He announced that the policy of the Government was to grant aid where there was every reasonable probability of the work being finished with such assistance; in their own, the aid given by the Government would depend to a great extent upon the aid given to the road by the municipality.

The Government, he contended, had nothing to do with the traffic or business of any road; all they had to do was to see that the Company had sufficient resources to complete the road after receiving the Government grant.

Mr. Cameron and Mr. Macdonald opposed such a policy, which was contrary to the principle of the Railway Act, under the existing law, and not calculated to benefit the country. They were strongly in favor of limiting and useful railway enterprises, but opposed Government assistance being extended to purely local lines, or to roads running in direct competition with lines already built.

Mr. Holman also contended that the Government had changed the general policy laid down in the Railway Act. The true policy, in his opinion, was that Government aid should be granted with regard to the subscription of the road, and altogether independently of the amount given in the shape of loans by the municipality.

Mr. Scott took a somewhat similar view, and Mr. Wood argued in favor of Mr. Crooks' position until the House rose.

Mr. Macdonald took strong exception to the last clause, as binding the House to a contract of which they really knew nothing, and said it was a doubtful if the Georgian Bay branch line would ever be built.

Mr. Scott spoke to the same effect. The connection with the Georgian Bay branch would be a colonization road, and as such he asked why the Pacific Junction, skirting the water, should have preference over the Georgian Bay way—which was an earlier enterprise and opened up a better country, or of the Belleville and North Hastings road.

Mr. Wood justified the course of the Government by a reference to the railway policy of the Sandfield Macdonald Ministry. The Victoria railway would open up a more valuable section of country than the Pacific Junction, but since the opening through which it passed did not belong to the people of this country, but to an English Land Company, such should grant reasonable aid to it.

Mr. Cameron came to the aid of the Government, and he said that the Government would be bound to help its extension westwards to as large an extent as the Pacific Junction, and he thought it might be done by a land subsidy, which would not be in the least a dollar out of the Treasury of the Province.

Mr. Cameron asked why the Government had not taken power to make a provisional arrangement with the Victoria railway as with the Pacific Junction. He vigorously defended the English Land Company, and declared that the lands now, as originally the settlers were entitled to consideration at the hands of the Government. He objected to proper arrangements with the Pacific Junction. The Company might not have a dollar of subscribed capital more than was necessary to organize, and yet the Government would give them a subsidy of \$500,000. It was simply absurd, he said, to ask that the Government should subsidize the Victoria railway, and yet not do so with the Pacific Junction.

Mr. Parlee said whatever the Government did not submit to the Legislature, and that all this talk about the Victoria railway was with a view to a possible early election in South Victoria.

Mr. Macdonald made a very forcible appeal against the clause, which he said constituted the Legislature a mere rubber stamp, and attacked the Provincial Secretary for neglecting the Victoria railway, whose claims he advocated strongly. As to the subsidy, he said, it was a mere rubber stamp, and he said that the Government would not be bound to subsidize the Victoria railway, and yet not do so with the Pacific Junction.

Mr. Holman said the House, if it chose, had not set to favor any particular locality. The Victoria railway would not become a colonization railway until it reached Kilmat.

The resolution was then adopted in Committee.

The Speaker having taken the chair,

Mr. Holman made a long speech in opposition to the policy of the Government, and Mr. Parlee denied that the Government was not to favor any particular locality. The Victoria railway would not become a colonization railway until it reached Kilmat.

The resolution was then adopted in Committee.

The Speaker having taken the chair,

Mr. Holman made a long speech in opposition to the policy of the Government, and Mr. Parlee denied that the Government was not to favor any particular locality. The Victoria railway would not become a colonization railway until it reached Kilmat.

The resolution was then adopted in Committee.

MONDAY, FEBRUARY 7, 1876.

Town and Vicinity.

TOWN COUNCIL.—Our "municipal parents" will hold a regular meeting this evening at the usual hour.

SEEDS.—Clover seed is in demand for shipment at 80¢ per bushel. Timothy seed is quiet at \$2 to \$2.50 per bushel.

A REVEL.—Special services, which are to be held tonight, will be commenced in the lecture room of the Bridge Street Methodist Church to-morrow (Tuesday) evening.

PRINCE EDWARD ELECTIONS.—In election chambers, Toronto, on Saturday, Mr. B. Thorne moved to postpone the trial of this case, which has been fixed for to-morrow. Mr. J. B. Read consents. Enlarged until to-day.

A FAWN CATCHER.—We learn from a fawn exchange that a half-grown fawn was passing through the village of Milford on Monday last. It was pursued and caught on the farm of John Vance, by a couple of hounds from the village. The little animal was captured unhurt.

DAYMEN'S ASSOCIATION.—The annual convention of the Daymen's Association of Ontario will be opened in Ingersoll on Wednesday. There is likely to be a large attendance of daymen from this section, and the proceedings will no doubt be of great interest to the trade. Next year's convention will be held in Belleville.

THE OSWEGO ROUTE.—The Oswego Journal of the 4th inst. informs us that "Superintendent Phelps, of the D. & L. & W. railroad, received a letter this morning from Mr. Downey, manager of the Bay of Quinte & Oswego Navigation Company, stating that he has decided to make a week this season, and to sail from this port. The Oswego Belle, the new boat, will arrive and leave three times a week, and the Kingstoner twice."

THE WEATHER.—Mr. Venable, our Canadian weather prophet, who has been remarkably successful in his meteorological predictions so far this season, and a little "out" at last, as all weather predictions dated several months ago, must occasionally prove to be. Instead of the steady frosts which we were promised, the temperature rose yesterday, and during part of the afternoon rain fell steadily, largely reducing the amount of snow on the ground. A light frost came this morning just in time to save the remnant of the snow. Sleight is still preferable to wheeling though the roads are not good for either.

A FISH STORY.—The Picton News item tells the following amusing but very "falsy" fish story: "A friend of ours told us the following, which was an example of fact and perseverance worthy of a town councillor. The gentleman was standing beside a mill pond one day when he observed a large bull-dog with a good sized rock fish in its mouth. He immediately was endeavoring to swallow. After trying for about three hours and not being able to either get it down or disgorge it, the ingenious fish went to the house where it belonged and told the fisherman the story."

THE ALLEGED QUEBEC ELOPEMENT.—The following from the Ottawa Citizen shows that there is no truth in the alleged elopement from Quebec which was published in length in the New York News. The Citizen says: "To-day we received the following telegram from a reliable authority in Quebec:—The two Misses Rowland left here in company with the Earl of Darnley for New York some days ago. There is no truth in the elopement statement. Dr. Rowland states they are with an aunt in New York; he is indignant at the rumor mentioned which has been in circulation here for some days. He threatens action against newspapers publishing the same."

THE BEST Sewing Cotton for Hand or Machine Sewing.—Clark & Co.'s Extra Quality Sewing Cotton is the best in the world. It is made of the finest cotton, and is fast by being impregnated by Dr. Pierce's Pleasant Purgative Pills, or Sugar Coat Concentrated Laxative and Herbal Juice. Anti-Bilious Granules—the "Little Giant" Cathartic or Mother's Friend. Dr. Pierce's Chemical Science enables Dr. Pierce to extract from the juices of the most valuable roots and herbs their active medicinal principle, which when worked into little Pills or Granules, is far more effective than the usual laxatives, and is much more palatable and pleasant in effect.

Dr. H. A. Taylor, of Birmingham, Ohio, writes: "I read your Pills and the best remedy for the conditions for which you prescribe. I have often used them, and they are mild and certain in effect, and leaving the bowels in an excellent condition. It seems to me they must take the place of all other cathartic pills and medicines."

Dr. J. C. Smith, of New York, writes: "We think they are going to sell like sugar. As people go to the pill trade, as those that have used them like much better than large pills."

HEALTHY REMEDY AS THEY TAKE THEIR CURE.—If you have a good deal of bile, take Dr. Pierce's Pills, and you will feel better. If you have no bile, take Dr. Pierce's Pills, and you will feel better. If you have no bile, take Dr. Pierce's Pills, and you will feel better.

CONSUMPTION.—An exchange publishes the following item: "The only countries where consumption is unknown among the natives are Lankah and Japan. In Lankah, as comparatively rare in Sweden, Denmark and Russia, as well as in Canada; all of these countries which present characteristics entirely opposite to those of England and Englishmen who go there to die." The writer of the above certainly never lived in Canada, nor studied the vital statistics of the Dominion. Utterly would have written otherwise. Utterly inadequate as have been the means of collecting vital statistics in the Province of Ontario, the report of the Registrar General for 1874 yet shows that 921 persons died in this Province from consumption in that year, and that the total number of deaths from the respiratory organs in that

How Men Feel in Battle.

A writer in the New York Times says:

I believe no two good soldiers will widely disagree in their estimation of a battle.

I take it to be a piece of bravado in a man to assert that he had no fear during a battle.

A battle is a terrible thing, and a man who takes to it is a brave man, and a brave man is a man who is not afraid to die.

The highest type of bravery is that of the man who realizes the full extent of the peril but sticks resolutely to his duty.

It was my experience, and a dozen times, that shell-firing is not ordinarily nearly so demoralizing as that of musketry. It is not often that shells are thrown so that fragments scatter death and wounds, and their loud humming overhead does not cause that nervous trembling which always follows the sharp ping of the air made by a shell.

When these things are as it is to give the soldier the idea that the whole air is filled with them, and that he is certain to be struck with them. All I believe, will agree as to the sensation first caused by the impact of a bullet. It is a stunning, overpowering feeling, which for a time overpowers the local pain of the wound. In my own experience a single bullet near the head knocked me flat, and for two days after I could not stand.

Soldiers have frequently been prostrated by spent balls. A curious effect of shell wounds is that they do not bleed freely, but form a scab, which turns brown blood vessels and stops the effusion. A Minie ball extracted from the head of a soldier, and the body presents a remarkable feature. I have seen them where the resistance of the flesh had turned the bullet into a solid mass, and the body presented a remarkable feature. I have seen them where the resistance of the flesh had turned the bullet into a solid mass, and the body presented a remarkable feature.

The Wonderful Flower.

[From the Washington Chronicle.]

He wore a broad-brimmed, black hat and red necktie; his hair was jet black and combed to the side.

He was a man of about thirty years of age, and he had reached the middle of the door when he was met by a gentleman.

Gentlemen looked up at his dark suit and curly hair, and for a few moments said: "Eli! How do you do?"

Oh, no! You like flowers, you like in the house!

Oh, flowers, yes, I like flowers; why not?

I got some nice flowers here. I scolded for you, and I have a lot of them.

BEFORE TALKING, GRAY'S AFTER EATING
SPECIFIC MEDICINE
 Cures ALL NERVOUS DISEASES, such as
 TREMORS, DIZZINESS, PROSTRATION, &c.
 Involuntary discharges, and all diseases of the
 system, in tobacco and alcoholic habits; but
 the Specific Medicine is not a cure for
 WEAKNESS, SPERMATORRHOEA, IMPOT-
 ENCY, and all diseases that follow as a re-
 sult of Self Abuse, as Loss of Memory,
 General debility, Pain in the Back, Headache,
 and a Premature Grave, all of which, as a rule,
 are caused by deviating from the path of Nature
 and over indulgence.
 The Specific Medicine is the result of a life
 study and many years' experience in treating
 these special diseases. Full particulars in our
 pamphlet, which we desire to send free by mail
 to every one.
 The Specific Medicine is sold by all Druggists
 at 25¢ per package, or six packages for \$3, or by
 mail free by mail on receipt of the money by
 addressing—

DAILY INTELLIGENCER.
Profiteuse.
 Profiteuse will hardly be considered a
 virtue in any one, much less in a Christian.
 It is not even a grand virtue, but it is a
 virtue, and it is a common one. There is no-
 thing in it that attracts or repels. It is a
 virtue; certainly nothing to make one envy
 its possessor. It is not only not worth the
 name which many put forth for its acquisition,
 or which they expect for its infusions, but it
 is a perfect plague to its owner. One might
 as reasonably boast of scabiness or of the
 influence of such a possession as of a virtue.

DEPARTMENTAL REPORTS.

POST OFFICE DEPARTMENT.

The report of the Postmaster-General for the year ending June 30, 1875, was brought down on the 11th. The following is a very brief summary of the report so far as it relates to the business done in the year. The number of post-offices in the Dominion on January 1st, 1875, was 4,892; the number of miles of post-roads in 1875 was 38,480; the number of miles annually traveled by mail was 144,884,788. The number of letters and post-cards carried was 42,000,000; the number of newspapers was 31,300,000; the number of registered letters was 1,750,000; the number of parcels was 1,200,000; the number of letters was 131,332. The revenue for the postal year ending June 30, 1875, was \$1,836,599, and the expenditure \$1,875,341. The number of money order offices on June 30, 1875, was 687; the amount of money orders issued was \$6,721,430. The number of post-office savings banks, which are confined to Ontario and Quebec, was 288; the number of depositors was 24,994; the total amount deposited was \$1,849,326; and the amount of deposits and interest to credit of depositors was \$2,926,000.

INTERNAL REVENUE.

The following is a summary of the Internal Revenue Report for the year ending June 30, 1875:
The receipts during the year were \$6,000,241, being a decrease of \$858,607 from 1874. The decrease was \$859,229 upon tobacco, \$113,421 upon revenue from public works, \$6,316 upon culling timber, and there was an increase in bill stamps of \$33,359. The two last years as compared with the two preceding ones show an increase of \$1,842,822. The quantity of spirits manufactured was in 1875, 5,019,500 gallons, against 4,537,741 gallons in 1874. The quantity in warehouse at the end of 1875 was 2,147,905 gallons, against 1,095,840 in 1874.
The quantity in bond at the end of 1875 was greater than any previous year. It was more than double the quantity at the end of 1874, and nearly 984 per cent greater than the average in bond at the end of each of the three previous years.

The export of spirits during the past year was 207,451 gallons, against 197,676 in the previous year, while the average export for 1871-72-73 was 345,312 gallons.
The quantity of malt manufactured in 1874-75 was 41,039,080 pounds, against an average of the three previous years of 37,096,754. The quantity taken for consumption was 33,016,082 pounds, against an average of the three previous years of 31,244,644 pounds. The quantity exported was 4,077,900 pounds against an average of the three previous years of 7,299,409 pounds. There were in warehouses at the end of the year of 1874-75, 7,962,939 pounds, against an average of the three previous years of 10,169,088 pounds.

The quantity of tobacco manufactured in 1875 was 9,567,152 pounds, against 7,704,145 pounds, the average of the four previous years. The quantity taken for consumption was 6,975,443, against an average of the four previous years of 7,299,409 pounds. The quantity exported was 7,299,409 pounds, against an average of the four previous years of 627,003 pounds. There were in warehouse 9,300,494 pounds, against an average of the four previous years of 1,902,016 lbs.
The quantity of petroleum manufactured was 4,811,596 gallons, against an average of the previous year of 7,562,282, and 1871-72-73 of 12,569,623 gallons. The exports in the last period averaged 1,737,397 gallons. In 1874 they declined to 1,065,787 gallons. Last year the exports went down to the nominal quantity of 1,368 gallons.
The revenue derived from canals was \$392,407, against \$491,143 in the previous year.

THE MILITIA.

Gen. Selby Symth's report is of unusual length, comprising forty-seven pages. In addition to ordinary military matters, it contains special reports on the condition of the North-West Mounted Police force, and on the General's conferences with the general commanding in Montana, Washington, British Columbia, and Oregon Territories, to whom he was accredited by the American Government. Various suggestions are made as to the state of the militia, and the organization of a corps of mounted infantry or riflemen for the interior of British Columbia for the security of the population from any alarm that might occur to disturb the present peaceful relations between the white and colored inhabitants of the country.

The training of the militia during the past season is said to have been carried out in a satisfactory manner. He enforced the necessity for training schools for both cavalry and infantry. Failing their establishment, he suggested the selection of a batch of garrison instructors selected from the amongst officers educated professionally up to the highest modern standard and detailed through the military districts. In his examination of the camps of exercise last

year, in the camp at Brockville only did he observe a few undisciplined men. Many of the rifles are so long in use as to be unfit for service. The new clothing issued this year is a failure. The shape of the frock is very unpopular and the serge material very bad. The force equipped here is unsatisfactory. The numbers of militia trained in the past year are given as follows:—Ontario, 14,836; Quebec, 8,108; Nova Scotia, 5,033; New Brunswick, 2,424; British Columbia, 209; Prince Edward Island, 484; Manitoba, none; total 28,845. The Military College is now ready for the reception of cadets. As the staff, he proposes the restriction of district staff appointments to five years, allowing the re-appointment of officers of proved qualifications. The selection should be made on account of professional skill, apart from any claim on account of local connection or influence. Where the latter is applied the best material is not always supplied and the efficiency of the service suffers, the wide sphere of Canada requiring intelligent, active, well-informed staff officers, in whom full professional reliance can be placed.

He also recommends the partial reduction of the Brigade staff. Some of the Districts are overstocked with the staff, most of whom have almost a sinecure for three-quarters of the year. The distribution also is unequal. It is suggested that the Brigade staff should be absorbed as vacancies occur, leaving one Brigade-Major to every 3,000 men of the active establishment of each military district. The money thus saved might be used to purchase more arms and accoutrements for the force. It is proposed that no appointment to staff, unless in case of re-appointment, should be made without the officer having previously passed a qualifying examination and received a certificate of fitness from headquarters.

SUMMARY.

This concludes our detail of building operations in town during the season, which shows that in West Belleville there were 107 tenements erected during the year at a cost of \$114,770. This, added to the 143 tenements erected in Belleville at a cost of \$247,000, gives for the town the handsome total of 250 tenements built in Belleville during 1875, the total cost of which was \$361,770. Even this return falls short of the exact figures, as the completion of our returns was begun so late in the season that information of a considerable number of houses could not be obtained. Though this be the case, the figures which we have, after a great deal of trouble in obtaining, bear a great deal of resemblance to those which would be highly satisfactory, as showing that, in spite of the hard times, Belleville's progress last year was more rapid than in years before. It is also a state that, on the coming year, to be able to state that the building trade next year will probably be very brisk. This we augur from the fact that preparations for the erection of new buildings are to be seen in every quarter of the town, and that builders are pouring numerous applications for their services. It is idle to say that any of the four or five most populous cities, or that in Ontario can make such an exhibit of building operations, both in number and quality of buildings, as Belleville made last year. Even Ottawa, considered the most rapidly growing place in the Dominion, if expended on public buildings and churches, is excluded from competition, does not make a better exhibit than does this town, which, with its great natural advantages, must be a city within a short time.

THE SUICIDE.—Sir Stafford Northcote has submitted a bill to the House of Commons for the purpose of giving effect to the provisions of the Act in relation to the property of the deceased, and it is the intention of the House that it should be passed into law. The bill is intended to give effect to the provisions of the Act in relation to the property of the deceased, and it is the intention of the House that it should be passed into law.

RECKONED DOWN.—The Ottawa Citizen writes that a caucus of Quebec Liberals this morning Mr. Holton's name was proposed for the position of Minister of the Interior. OTTAWA NOTES.

We glean the following from the Toronto Press.

The British Columbia members held a second caucus to-day, and will probably as the result seek an interview with the Government in order to discuss the question at issue between that Province and the Dominion.

Dr. Forbes, M. P. and Mr. Campbell, of the Meteorological Office, Toronto, had an interview with the Minister of Fisheries relative to the system of transmitting information of storms to be placed on the coast. They discussed the necessity of having a thoroughly equipped meteorological establishment of our own at Ottawa, from which, as a central point, cable observations could be made, registered, and transmitted to all parts of the country likely to be affected by storms, and the probability of the coming weather. The Minister of Marine said the subject had long engaged the attention of the Department, and he was very anxious that such a useful institution should be established.

The Ministerial explanations invited by Sir John Macdonald in the House on the address were not made to-day. The Government evidently desiring the adjournment without the bawling to which the explanations would have led. It is quite probable that Sir John Macdonald will when the order of the day is called to remind them of their neglect.

The cause of the Government Party today. The rumor is, and there is no reason to regard it as other than correct, that Mr. Jetté alone among the French members of the Opposition took the other day by Mr. Holton, and that the member for Chatham yielded to Party arguement and beat an ignominious retreat. Several ministers in consequence refused to attend. It is true that Mr. Holton, he had better have left the matter untouched; better had he never spoken than submitted to such a rebuff. Mr. Jetté, however, remained in his position, in the first place, because he might be extremely damaging in Ontario to put him; and in the next place because of the difficulty of electing any one in Quebec to fill his place.

WEDNESDAY, FEBRUARY 16, 1876.
THE PALEN JOB.

The following correspondence, in reference
to this matter, with the accompanying
editorial notes appearing in the Ottawa
City of a recent date, is—
To the Editor of the Ottawa City.

Sir,—At the last session of Parliament a
committee of the Senate gave evidence
before the Committee of the Minister of
Public Works having delivered him of a
report. Can you tell me what has been done
in the matter?

Yours,
FAIR PLAY.

[Note.—We understand that the Minister
of Public Works, upon being applied to by
Mr. McCreary, the solicitor for Mr. Palen, said—
"I don't care three shillings no claim." This
matter remains in abeyance. (Critic.)
As the facts connected with the above
transaction, in which the Ministry appear in
a most unfavorable light, may have faded
from the minds of many of our readers, we
reproduce them, as stated in the report of
the Senate Committee on the subject, in
order that the position which the Premier
is said to have taken in the matter may be
fully understood. It appears that tenders
were called for by the Department of
Public Works on the 2nd of February, 1874,
for certain work connected with the Gatineau
Booms, to be sent in by noon of the 7th
February. On the afternoon of that day,
Mr. Trudeau, the Deputy Minister, and
Mr. Braun, the Secretary of the Department,
proceeded to open sealed tenders as had
been received, being four in number, and
these tenders were sent to the Superintendent,
Mr. Merrill, by the Deputy Minister, and
several others were received by the Department.
In consequence of information
received by the Minister of Public Works
(the Honorable Mr. Mackenzie) he directed
these tenders to be opened and sent to the
usual office to be opened on Monday, the 9th,
and informed that, on Monday, the 9th,
and informed that, on Monday, the 9th,
and informed that, on Monday, the 9th,

the state of the weather rendered it imperative
that the work should be done at once. In
consequence of the direction of Mr. Merrill,
Palen commenced work on the 9th, and the
necessary preparations to carry on the
work, and continued to employ men and
teams, and provide material until Monday,
the 16th, when he received the first of the
tenders and the contract had been awarded
to another party, and at once
ceased work.

The contract which was thus taken from
Mr. Palen was given of course to a Government
contractor—Mr. Murphy—whose tender
was higher by some \$200 than that of
Mr. Palen, whose only offence was that he
was a Conservative.

This state of facts coming to the knowledge
of Hon. Robert Read, that gentleman
at once took action in the matter by moving
in the Senate for the Committee of Enquiry,
with the usual powers. This Committee
was appointed, and examination of the
specimens of the work done by the contractor,
and the Minister (Mr. Mackenzie) himself,
showed that the matter was in the
position above stated.

The only excuse which the Premier was
able to urge was that Palen's tender had
not been mailed early enough—although
sent to the proper office for extension—
which discovery was not made until nine
days after the day appointed for receiving
tenders and several days after Palen had
commenced work.

So awkward an excuse was at once seen
through by the Committee, which controlled
the Premier's assertion by finding
in accordance with the facts, that Mr.
Palen's tender was posted within the time
specified in the advertisement, and that
under the circumstances Palen should be
reimbursed the cost incurred in the work.
The friends of the Government strenuously
resisted the passage of the report, and
delayed it all they could, but it was finally
adopted two days before the close of the
session, so notwithstanding the chagrin
of the gentlemen at the head of the Government,
who now, it would appear, sets the
Senate at defiance by refusing to pay the
sum which that House declared was due
and owing to Mr. Palen.

Whether Mr. Mackenzie is in a position
to successfully resist the action of the
upper chamber or not, he has not shown
much wisdom in attempting to do so. His
friends served his cause well in delaying
the passage of the report until the close
of the session, when, coming amidst a rush
of business, it did not receive so much
attention as it otherwise would have done.
By assuming his present position, he has
revived the subject with all its unwelcome
associations, and if he be the sufferer, his
own petulance will have been the cause of
stirring up the matter. Even should he
succeed in maintaining his position, it will
be one of those victories which have all the
consequences of a defeat attached to them.

We shall watch further developments
with interest.

Cornwall.—The petition to unseat Mr.
Stetinger, M. P. P., for Cornwall, will be
tried at that town on the 14th of March.

The Ontario Dairyman's Convention.

The ninth annual Convention of the
Dairyman's Association of Ontario, was
held in the Music Hall at Toronto, on
Wednesday, the 9th inst., and continued
until the 11th inst., when the meeting
was held, having been burnt down on
the Saturday evening previous. Prof.
Bell, of Albert University, delivered the
Annual Address, which was received with
marked approbation. The Professor stated
the quantity of cheese and butter shipped
from the Province in 1875, as follows:

LICENSES UNDER THE NEW ACT.

The new License Act continues in force
the present Tavern, Shop and other liquor
licenses until the first day of May next.

In order that this extension shall be
obtained, it is requisite that every holder
of a license must, between the 15th day
of March next, pay to the Treasurer of
the Municipality one-sixth of the fee
paid last year, and receipt therefor, and
submitting the receipt to the issuer of
Licenses, and paying him one-sixth of
the Provincial duty, he will endorse in the
license an extension of time to the first of
May next, otherwise their licenses will
expire on the 1st of March next.

It will also be noticed that the duties of
the present License Act are repealed, and
the Municipal Councils have nothing to

SPECIFIC MEDICINE

Cures all NERVOUS DISEASES, such as
TREMORS, DEBILITY, PROSTRATION,
etc., which in many cases are the result of
exhaustion in tobacco and alcoholic habits; but
the Specific Medicine is especially recom-
mended as an unfailing cure for SPINAL
WASTING, STIMULANT, and
TENDON and all diseases that follow as a
result of Self Abuse, or Loss of Manhood,
Venereal, Premature Old Age, and many other
Diseases that lead to Debility or Consumption,
and a Premature Grave, all of which as a rule,
are caused by deviating from the path of Nature
and over-indulgence.

The Specific Medicine is the result of a
life study and many years of experience in treating
these special diseases. Put out in the form of a
pill, which is sold to send free by mail to
every one.

The Specific Medicine is sold by all Druggists
at 50¢ per package, or six packages for \$3.00, or will
be sent free by mail on receipt of the money by
addressing

Daily Intelligencer.
The Successful Physician.
From the St. Louis Globe.
There is probably no man to whom the
community owe so much as to the honest,
fair-spoken physician, who does his duty
both to himself and to his patients.
He is a man of high character, and his
virtues are not to be measured by the
advertisement of Dr. R. R. Pierce, of
Buffalo, may well claim the reader's attention.
Dr. Pierce is a type of a class of men who
obtain success by careful and well-directed
effort, not attempting too much, or creating
false ideas as to ability. The only reliable
physicians in these days of complicated dis-
eases and high-pressure living in the
"Specialist," the man who understands his
one branch of the business. Such in his line
is Dr. Pierce. For the benefit of his readers
he has written a "Common Sense Medical
Advice," which is well worth reading by
those who need such a work. With strict
business honor, high professional skill, reason-
able fees, and a large corps of competent as-
sistants, Dr. Pierce will doubtless make his
name familiar as "household words." dt

ALBION HOTEL,
MONTREAL, CANADA.
HAS for twenty years past been the favorite resort of the general travelling public in the
United States, as well as of Canada, when visiting Montreal on business or pleasure.
It is centrally located on McGill Street, the best thoroughfare and commercial centre of the
city. It occupies a magnificent view of the River St. Lawrence, the Victoria Bridge on the
left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished
throughout in a superior manner, and everything arranged with a view to the comfort
of guests. As one of the largest hotels in the Dominion, having ample accommodation for 500
guests, while kept in the first-class style, the charges will be moderate. The travelling commu-
nity will consult their own interests by remembering the Albion Hotel when visiting Mon-
real.

WISNAR'S BALSAM
OF
WIND CHEMIST
THE GREAT REMEDY FOR
CONSUMPTION
which can be cured by a
timely resort to this stand-
ard preparation, as has been
proved by the hundreds of
testimonials received by the
proprietors. It is acknowl-
edged by many prominent
physicians to be the most
reliable preparation ever in-
troduced for the relief and
cure of all Lung complaints,
and is offered to the public,
sanctioned by the experience
of over forty years. When
resorted to in season it sel-
dom fails to effect a speedy
cure of the most severe
cases of Coughs, Bronchitis,
Croup, Whooping Cough,
Consumption, Asthma, Colds,
Sore Throat, Pains or Sore-
ness in the Chest and Side,
Liver Complaint, Bleeding
at the Lungs, &c. Wistar's
Balsam does not dry up a
Cough, and leave the cause
behind, as is the case with
most preparations, but it
loosens and cleanses the
lungs, and always irritates,

Daily Intelligencer.

WEDNESDAY, FEBRUARY 23, 1876.

Town and Vicinity.

POLICE.—There were three prisoners and one voluntary lodger in the cells last night.

Go to the great selling out sale of first class staple Dry Goods and Clothing at Walsh's Commercial House.

COUNTY COUNCIL.—The next meeting of the County Council will be held in the Shire Hall, commencing on Tuesday, March 7th, at 2 o'clock, p. m.

LEAP YEAR DAY.—Shrove-Tuesday and Leap-Year Day will both occur this year on the 29th inst. No public business has not happened since 1724, and will not occur again till 1944.

Go to the great selling out sale of first class staple Dry Goods and Clothing at Walsh's Commercial House.

LICENCES.—The attention of all interested is directed to the portion of the Provincial Government's circular regarding liquor licences, promulgated in our columns by the Town Clerk, for public information.

OBITUARY.—The demise of Mr. Wm. Robertson was accidentally omitted from the list of Belleville Coroner's inquest for Montreal yesterday. The interment was at St. Mary's, at 2 o'clock, p. m.

MISSIONARY MEETING.—The annual Congregational Missionary meeting of last night with good success. Interesting addresses were given by several Rev. gentlemen, and a considerable collection was taken up.

DAIRYMEN'S ASSOCIATIONS.—Thomas Ballantyne, M. P. P., Mr. E. C. Crawford, Ingersoll, and Mr. Fraser, Secretary of the Advisory Board of Ontario, left for Philadelphia on the 22nd, to arrange the exhibition of dairy products at the Centennial.

Go to the great selling out sale of first class staple Dry Goods and Clothing at Walsh's Commercial House.

LEGISLATION.—On the 22nd inst., the Municipal Councils of London, South Collingwood, Nanawake, Kenilworth, Mill Point, &c., passed by-laws restricting the number of increasing the cost of liquor licences, or providing that only liquor sold in a shop to which a license has been granted.

PROPHETIC.—Weather prophets are pretty unanimous in predicting that the coming summer will be very hot and dry, and are there are nearly all of the usual accumulations of ice in our inland waters to cool the atmosphere during the early spring and summer months.

FARMHOUSE.—Mr. and Mrs. Bowell, Mr. and Mrs. St. George, and Mr. and Mrs. Bell, Mr. and Mrs. Cuthbert, (Kingston), Mr. Kirkpatrick, Senator McDonald (Toronto), Mr. McDonald (Belleville), Mr. Walter Ross, Mr. Lewis Ross, among others, received invitations to dine with the Premier and Mrs. Mackenzie on Saturday evening.

"TALL BOWLING."—The St. Catharines Union Society the Intelligencer of "tall bowling" in asserting that no place outside of the four most populous in Ontario erected so many buildings as to house a city of 400,000 inhabitants in 1876. The *New York* asserts, in contradiction, that 200 dwellings, stores and hotels were erected in St. Catharines, during the same period, at a cost of over \$500,000, and asks how these figures compare with ours at the same time adjusting to ascertain facts? That is the point exactly. When the *New York* gives facts, figures and details we shall believe its statement. Until then we decline to accept his assertion, which is entirely unsupported by a single fact.

CHRIST CHURCH SOCIETY.—This entertainment, which took place in Ontario Hall last night, was one of the most successful of the kind ever undertaken by the members of this Church. The tables were furnished with a superabundance of excellent viands by the liberality of friends, and a crowd of guests did ample justice to the fare. The Committee are much indebted to the kindness of Dr. Cropper and others who took part with him in the delightful quartettes which they played. The Misses Vanille received a hearty ovation for their exquisite and well rendered piano forte performance. The piano was kindly furnished for the day in which they had performed their arduous duties, and congratulated them upon the result. The proceeds are calculated at about \$150. A children's

entertainment was announced for Thursday evening next at 6 o'clock, ample provision remaining for it.

THE PANTOMIME.—With the kind and ever displayed by the officers of the Grand and Dublin Institute, Messrs. Grand and Wallbridge, this evening, under the pantomime "Cinderella, or the Glass Slipper," in aid of the cause of the poor. The company's ability of these two gentlemen will no doubt be rewarded by a full house, as every spectator will not only enjoy the entertainment but will also be helping the poor of the town.

Police Court.

(Before A. Diamond, P. M.)

John Stokes, first offence, was discharged.

BRICKING WINDOWS. Thomas Frederick and Later Frederick were discharged, the complainant withdrawing the charge.

SABOTAGE. Alexander Langlois was found guilty of stealing a hat from B. Wistar, and pleaded guilty to stealing a razor from A. Page. He was given a month's imprisonment for each offence, or two months in all.

A DIVISION. The dispute between William Simpson and wife as to their money, was settled, the money being equally divided between them.

Thurford Council.

PRESIDENT.—H. Ashby, 1876.

REVENUE.—Wm. Hudson, Deputy Receiver, J. O. Hoffman and Peter McDougall, Councilors.

The minutes of the last meeting were read and approved.

PETITIONS. The petition of A. Reed, a farmer, signed, asking the Council to open the road allowance for public use between lots 12 and 13 in the 7th and 8th concessions, and the petition of J. S. Hamilton and others, were laid over.

The petition of A. Reed, and others, praying the Council to open the road allowance between lots 25 and 26, in the 3rd concession, was laid over.

Town and Vicinity.

RETRIED TIME.—The mail train from the east was expected at two hours behind time this morning.

Go to the great selling out sale of first class staple Dry Goods and Clothing at Walshe's Commercial House.

QUIT.—Last night was very quiet in police circles. No arrests were made, and only one man lodged in the cells.

Wool.—The market is daily stocked with a large supply of cordwoad. Dry land wool of the best quality brings \$4 per cwt, and green wool, though a number of contracts have been made below these figures.

Go to the great selling out sale of first class staple Dry Goods and Clothing at Walshe's Commercial House.

SALE OF FANCY GOODS.—Mr. Wilkins will commence this evening at his auction rooms, opposite the Anglo American Hotel, the sale of a large quantity of fancy goods, including a large quantity of high quality goods from the advertisement.

MEETING.—A meeting of the members of the Liberal Conservative Association is to be held in their rooms, Intelligence building, on Thursday next, March 2nd, at 2 o'clock p. m. A full attendance is particularly requested, as business of importance will be brought up for consideration.

Cold.—The article which swept over the country yesterday was not without effect. The ordinary thermometer marked 6 degrees below zero yesterday morning, and this morning during the day varied but little from that, the temperature failing to rise above zero during the whole day. This morning the thermometer marked 8 degrees below zero.

SEVERE REMOVAL.—G. Brown, keeper of the Mechanic's Hotel, opposite the Dominion House, a well known and secreted during the night, at 7 o'clock this morning, the police, at 7 o'clock the premises were entirely bare of furniture. What the cause of this hurried departure we have not ascertained.

TELEPHONE LECTURE.—Mr. J. H. Raper, the celebrated English telegraphist, will deliver a lecture, under the auspices of the World's Fair Temperance Association, in the Town Hall tomorrow night. Mr. Raper has been for some years in this country, and has lectured at various places, the press being unanimous in his praise. Admission will be free, a collection being taken up to defray expenses. We hope to see a large attendance.

G. W. CARLTON & Co., of New York, N. Y., have been appointed the exclusive agents for the sale of the new "Illustrated History of the Year," being a series of Reference Scrap-Book, or Record of nearly every important event during the month of January, together with a record of the lives of the illustrious men of the world, all properly indexed. The first number will contain a fine colored portrait of the late millionaire, William B. Astor. Will be edited by Frank Moore, famous as the projector of the "Illustrated History." This curious and original work will be gladly welcomed, we think, by all classes of readers.

LOCAL CASES.—The following local law and equity cases were before the Court in Toronto yesterday: Lynch vs. Corporation of Belleville; Mr. Henderson obtained an order to refer to arbitration the matter of a new "Illustrated History of the Year," being a series of Reference Scrap-Book, or Record of nearly every important event during the month of January, together with a record of the lives of the illustrious men of the world, all properly indexed. The first number will contain a fine colored portrait of the late millionaire, William B. Astor. Will be edited by Frank Moore, famous as the projector of the "Illustrated History." This curious and original work will be gladly welcomed, we think, by all classes of readers.

ASSAULT.—An exchange says: "Last week a man named to be a perfect model of the present winter, and that is a case of sunstroke. It is nearly the first of March, and we have had spring weather most of the time; the man had one case of sunstroke. Any one who has a case of sunstroke at this time will be generally regarded. We feel as though we could get through without a case of sunstroke." If the weather continues as it is, "any one" will have to wait a long time for a case of sunstroke, though if frost-bite would not it could be easily put off.

The Best Baking Powder for Home or Business Use is the "Globe" Brand. It is the only one that will not "burn" the cake. See "Globe" Brand in the "Globe" Brand.

The Pantomime.
 The promised entertainment by the officers and pupils of the Institution for the Deaf and Dumb, for the benefit of the poor, proved, as it deserved to be, a great success. In spite of the extreme coldness of the night, the Hall was well filled with a highly appreciative audience, who were most pleasantly entertained.
 Previous to the pantomime, His Excellency the Governor General's silver and bronze medals were presented to the successful competitors. Mr. C. V. Bogart occupied the chair.
 Mr. Palmer explained that the silver medal was offered for competition in the intellectual department. Last year it had been competed for by Mr. Coleman's class, and that since Mr. Watson's class had competed for it. The bronze medal was for competition in the mechanical department. Last year the competition had been in the carpenter's shop by Mr. Cohen's pupils, and this year in the shoemaker's department by Mr. Flowers' pupils. Miss Isabella McKillop, of Elgin, had been the winner of the silver medal, after a search and examination by some of the best judges. Mr. Gann and Watson, and Andrew Porter, who stood next, had also been recommended for a prize, which would be presented to him. The bronze medal had been won by Andrew Noyes, he having been one competitor, who was also deemed worthy of and would receive a prize. The work was examined by Messrs. C. V. Bogart, J. McKinnon and A. McKeown, and was pronounced of an excellent class.

Mr. J. W. Langmuir, Inspector of Prisons and Asylums for Ontario, was then introduced, and spoke briefly before he made the presentation of the prizes. He said that it had been intended that Mr. Palmer, the Hon. S. C. Wood, Provincial Secretary, would make the presentation, but in the absence of that gentleman he had been obliged to do so. He said that he had been seven years since the Institution had been opened, and he ventured to say that, considering the many and great difficulties under which it had labored, no other similar institution in the world could have better results. Since its opening upwards of three hundred pupils had attended, and there were at present two hundred and twenty pupils in attendance, which was the full capacity of the building. The dormitories of which could accommodate no more than they now contain. They did not, in the Institution, profess to give an education to fit pupils for the learned professions; all they did was to give them a good, thorough, English education. He said that he knew nothing of the difficulty of instructing deaf mutes, would be aware was a very large undertaking, but it was done efficiently, thoroughly and soundly. Ontario had no exception, when he said that Mr. and Mrs. J. H. Richardson's case of a confession by Mr. Tilton of Bowen's adultery. One case which Mr. Bowen brought forward, in which he stated that he had a lady who had been criminally intimate with Bowen, for many years, although no names were given, and no date, except that it was more than ten years ago, was considered by many of those present. Bowen had referred to the fact, although in his suit against the Brooklyn Express he asserted his wife's innocence, and stated that all reports and rumors in reference to her were false. The statement was a member of the Committee to be a discreditable, embarrassing case of Mr. Bowen for believing the charges against Mr. Bowen, and for continuing his connection with the Church. Arrived, the S. S. City of Peru, from Havana.

PIQUA, Ohio, Feb. 24.—The Summit paper mill was burned today. Loss \$200,000. **GREENSBORO, Mass., Feb. 24.**—The Congregational cloth manufactory and the adjoining building were burned last night. Loss \$200,000. **LEICESTER, Ky., Feb. 24.**—Yesterday afternoon a collision occurred between Gen. J. Rodman, formerly Attorney General, and Capt. Harry I. Todd, in front of the State House, Frankford. The two men were engaged in a heated argument, and the latter was struck by the general's horse. Both parties are of the highest standing, and generally esteemed. **St. Louis, Feb. 24.**—A despatch from Gen. Sherman says: The small band of citizens of Montana, who settled at Fort Teton, have been attacked by Sioux Indians and all but rescued. Troops have been ordered to go without delay to their relief. One man was killed and two wounded. **LONG BEACH, Cal., Feb. 24.**—Four Indians, one negro and a white man were condemned by the U. S. Court to be executed at Fort Smith on the 7th of April. **NEWARK, N. J., Feb. 24.**—The Hudson river is again full of new running ice and the cold weather of last night indicates that it will close again. The sudden and unexpected change has once more cut off hopes in the hearts of the ice companies.

CHICAGO, Feb. 24.—The annual report of the Chicago, Burlington & Quincy Railroad shows a surplus of \$415,000. **NEW YORK, Feb. 24.**—An Albany despatch says a statement is made that ex-Governor Morgan is to succeed Gen. Schenck as Minister to England. Statements by various papers here of the Bowen-Beecher case nearly agree that the report telegraphed last night, that Mr. Bowen, however, now says he locked Bowen in a playful manner. Beecher's friends give the following version of the substance of Bowen's statement: Bowen, by stating that Bowen was guilty of adultery, hypocrisy and perjury, but he added no proof of his statements. He mentioned neither dates or names, nor on exception, when he said that Mr. and Mrs. J. H. Richardson's case of a confession by Mr. Tilton of Bowen's adultery. Mr. Jones said the United States duties had
been lowered, but he had the disadvantage of
leaving the duties about the same as before.

Mr. Mackenzie made no further remarks in
favor of Free Trade, and he was again
served further motion to another link.

The debate was adjourned in the expectation

Civil Liberty in Quebec.

A REPLY TO SIR A. T. GALT.

Mr. Thomas White, Jr., of the Montreal Gazette, has written and published over his own signature a reply to the letter of Sir A. T. Galt on Civil Liberty in Quebec.

Having published a synopsis of Sir A. T. Galt's letter we give, in fairness to both gentlemen, a synopsis of Mr. White's reply.

Starting with the declaration that as he was the occasion of Mr. Huntington's speech in Argenteuil, which caused the writing of Sir A. T. Galt's letter, he may therefore without presumption be permitted to deal with the issues arising out of that speech, Mr. White reviews the tactics of the "organized hypocrisy" in Argenteuil.

Amongst the points which he mentions as being unworthy of support on account of his connection with the "Masonic Brotherhood" whilst in the Protestant sections of the County he was denounced as a priest, and he is thus generally alluded to as a friend of the Roman Catholic Bishop of Montreal.

As a member of a society of Lay Jesuits whose object was to lead over the Protestants of the Province to the tender mercies of the Roman Catholic Hierarchy, Mr. White was assured, on the authority of a gentleman who professed to know that his office in Montreal had been literally swarmed with Roman Catholic priests, and that therefore no sound Protestant could go to him.

He proceeds to say that, meeting Mr. Huntington at St. Andrew's, he complained of these appeals to the religious rather than to the political sentiments of the people, and that the latter then made his famous speech.

From this fact and the publication of the Galt letter Mr. White draws the conclusion that a "new departure," with diversion from the political grounds, has been resolved upon. He goes on to say:

If the position of the Protestants in this Province is at present a humiliating one, as you almost assert, there is no public man upon whom the responsibility of that position rests more heavily than upon yourself.

When the federal union of the Province took place, and the Protestants were charged with the duty of protecting the interests of the future of Parliament, they were specially charged with the duty of protecting the interests of the future of the Province.

In the performance of that duty, as you have more than once stated, you had the hearty sympathy and support of the French Canadian Conservatives. In what way have the guarantees which you then secured been infringed upon or even threatened? No change has taken place, or been attempted, in the basis of representation. No suggestion has been made, or has been made that our educational privileges should be in any way lessened or impaired.

The legislation of last session, which you refer to as "such re-assuring," so far as the Protestants are concerned, has been the direct opposite of the impression upon our minds.

I think the right is saying that every suggestion offered by the Protestants was embodied in the act. That is a fact to which I venture to think you cannot deny.

But in the legislative process of any other country in the world. Thus secured in our own fullest rights of control over the education of our children, it is not reasonable that we should demand that we should be treated with the same leniency as the religious majority, especially when no representative of that religious majority in Parliament asks for interference, and no Catholic minority out of Parliament protests against the legislation.

Taking up next Sir Alex. Galt's statement that appearances at the time of Confederation were favorable, Mr. White argues at considerable length that no change has taken place in the attitude of the Roman Catholic majority towards the Protestant minority.

With regard to Bourgeois' letter, he expresses his utter lack of sympathy, though he admits it is an example of the fundamental difference between the two religious systems.

It is his opinion that it does not apply to Protestants at all.

He protests against a Protestant manifesto as an attempt to increase the power of the Roman Catholic Church in Quebec, handing over its affairs more exclusively to the majority. On this point he says:

"If it be true as you suggest, that a deep lack exists for the supplies of the Province of Lower Canada to ecclesiastical rule, with the view of extending the same beneficial influence, hereafter, to the whole Dominion, can imagine no means more likely to aid this design, at least so far as the Province of Quebec is concerned, than the declaration that there is a minority among Roman Catholics who do not accept the doctrine of Rome, and a call to union among Protestants to aid them in their struggle against the authority of their own Church."

In the course of a review of affairs since Confederation, Mr. White says:

"Within the last half dozen years the so-called Liberal party have been more submissive in their attitude towards the Roman Catholic Church and more bold in their claim for the support of that Church, than any political party have ever been in Canada."

Its single object was to present a new party to the country, free from the claims of the Catholic majority, and accepting to the full "the extreme views embodied in the programme of 1871, and their union with the Bourgeois to defeat Sir John Cartier, you acknowledge in your pamphlet."
